### 3. Account Access

Under the FCC rules governing the use and disclosure of Customer Proprietary Network Information (CPNI), F&B Communications will only be allowed to discuss CPNI at our retail location(s) with those listed as an authorized user on the account and carrying a photo ID. The only exceptions may be for certain routine customer service issues if you have all pertinent information with you, such as the bill or call detail information you wish to discuss. Remember, CPNI includes call detail information and certain account information, including the amount of your bill. For telephone inquiries, other rules dictate how we authenticate a customer. In order to make your experience with F&B Communications the best possible, we want to give you the option of adding authorized users to your account. Adding an authorized user does not mean that their name(s) will show up on the bill, but only that these persons will be allowed to discuss CPNI with our company representatives.

List any authorized users you wish to add to your account. The applicant and co-applicant listed on the first page of this application already have full access to the account so it is not necessary to relist these names.

Authorized User (Legal Name) \_\_\_\_\_

Authorized User (Legal Name) \_\_\_\_\_

Authorized User (Legal Name) \_\_\_\_\_

By signing this application, you expressly request that the company share certain account and call detail information, including Customer Proprietary Network Information, with authorized account users and is authorizing the company to share such information with authorized users as necessary to address service and account inquiries initiated by the account owner or any authorized user.

Question for Authentication: In what city were you born? \_\_\_\_\_

### 4. Marketing Opt-Out

Due to the nature of our business, F&B Communications, Inc. ("F&B") has access to information regarding the quantity, technical configuration, type, destination, and amount of services you the customer use. This data is considered customer proprietary network information (CPNI) and also includes information contained in the bills pertaining to telephone exchange service. Under federal law, you have the right, and F&B has the duty, to protect the confidentiality of your CPNI. F&B commits to keeping your CPNI data confidential and will not share it with anyone outside the company without a formal request from you. In order to better serve you, F&B would like to use your CPNI to market services and features directly fit for your needs. Approval or denial of this information will not affect any services you already receive from F&B; however, approval will enhance our effectiveness in getting pertinent information regarding our services in your hands. As a customer of F&B you have the right to approve or deny access to this information at any time. Your decision will remain effective until you revoke or limit such approval or denial.

F&B and its telecommunications affiliates want to use your CPNI to more effectively market communications-related products and services that you do not currently subscribe to—unless you tell the company not to do so. If you do not check the box below, it will be understood that you have given us approval to use your CPNI. You may opt-out at any time by writing F&B Communications, P.O. Box 309, Wheatland, IA 52777, e-mailing [info@fbc-tele.com](mailto:info@fbc-tele.com) or calling 563-374-1236.

I do not wish F&B Communications, Inc. or its telecommunications affiliates to use my CPNI to market communications-related products and services that I do not presently subscribe to.

### Preferred Carrier Freeze

Some telephone customers have had their telephone service provider changed without their consent. This practice is known as "slamming." In order to better serve you and keep you from getting your service changed without authorization, we provide a service for our customers who would like to have more control over their telephone service. This service is called a preferred carrier freeze. A preferred carrier freeze prevents a change in a subscriber's service without the consent of the subscriber. The preferred carrier freeze can be placed on your local, intrastate, interstate, and /or international telecommunications carriers. Once the preferred carrier freeze is in place, the freeze can only be lifted by you, either by written or oral authorization. The authorization required for the lifting of the preferred carrier freeze is in addition to the regular verification process required to change to a different telephone service. The written authorization must be signed and state your intent to lift a preferred carrier freeze. It should also include your billing name, address and each telephone number to be affected. If you have a freeze on more than one service (local, intrastate, interstate, and/or international), please also state which of the services are to be affected. The oral authorization can be initiated by the customer or can be a three-way conference call with you, the carrier to which you wish to switch, and one of our service representatives. There is no charge for this service.

Please check the service(s) which you would like to have frozen. If you do not know your new phone number, please leave the form blank and ask a customer service representative to fill in your number when available.
