## **F&B Communications** is bringing fiber high-speed Internet to your home!

Good news! The fiber Internet upgrade in your area is moving forward. Our contractor, AE Underground, assisted by our engineering firm FARR Technologies, is scheduled to begin construction this summer.

Please complete and return the enclosed Construction Acknowledgement Form to allow our crews to install an underground fiber optic drop line from the roadside to your home. **There is no cost or obligation to subscribe to our service to have the fiber optic drop cable installed during the initial construction phase.** Even if you don't intend to subscribe to service from F&B Communications, we hope you will still provide permission to bury the fiber drop should you or a future homeowner wish to subscribe to service. Please complete and return this form as soon as possible so our crews can remain on schedule.

Prior to construction beginning on your property, our contractor will be contacting Iowa One Call to have underground utilities marked. If you are aware of private service lines or underground fuel tanks and gas lines on your property, we ask that you note them on the Construction Acknowledgment Form so they can be avoided during construction.

Building a new fiber network is a multi-step process. Once the initial construction is completed, crews will begin the delicate process of splicing the cables together followed by subscriber activation. We anticipate subscriber activation to occur in 2024.

We are excited about our network expansion in your area and look forward to potentially serving you.

**IF YOU HAVE ANY QUESTIONS, PLEASE FEEL FREE TO CONTACT US  
(563) 374-1236.**

Thank you!

### **About F&B Communications**

F&B Communications, Inc. (F&B) has more than 100 years of experience as a local telecommunications provider. For the past 22 years, F&B has offered high-speed broadband Internet services to subscribers in western Clinton County and eastern Cedar County in Iowa. The network consists of more than 540 miles of buried fiber.

We are proud to be the areas premiere local telecommunications provider offering telephone, long distance, Absolute Cable TV video, high-speed fiber Internet, and home security services to customers in the Bennett, Calamus, Delmar, Lowden and Wheatland exchanges and surrounding areas. The company also provides computer sales and service through their Technology Solutions retail division.

For more information and current service offerings, visit our website at **[www.fbc-tele.com/fiber](http://www.fbc-tele.com/fiber)** or call (563) 374-1236.
