November 2023

F&B Communications continues to make great progress on our fiber Internet expansion project in your area.

The project is on schedule, and we expect the construction phase of the project to be complete by the end of the year. Over the winter months and into the spring, our crews will be splicing and testing the fiber cables. We anticipate the network will be ready to add subscribers in the summer of 2024.

We know that many of you are looking forward to subscribing to our fiber Internet service, so we have added a project timeline with estimated completion dates on our Fiber Internet Expansion webpage. For the latest project updates, please visit www.fbc-tele.com/fiber/.

When the network is ready and we can add subscribers, our customer care team will reach out to you to discuss current service options. Internet, TV and phone services will be available.

While most of the construction should be completed by the end of the year, our construction contractor has plans to return in the spring to finish cleaning up and plant additional grass seed as needed.

We are excited about our network expansion in your area and look forward to potentially serving you.

IF YOU EVER HAVE ANY QUESTIONS OR CONCERNS, PLEASE FEEL FREE TO CONTACT US AT (563) 374-1236.

Thank you!
